

FAUNA OF IRANIAN COCKROACHES
(*ORTHOPTEROIDEA:BLATTARIA*)

By:

HAYK MIRZAYANS

S U M M A R Y

This present publication "Fauna of Iranian Cockroaches" is the first supplement to be published on the Fauna of Iranian Orthopteroidea. The author has revealed the presence of 24 species of cockroaches, in 11 genera, 5 subfamilies and 4 families in Iran. These species are given in the form of a checklist.

Systematic description, bio-ecology, medical and economic importance of each species is given. Some prevention and control measures are also included (in Farsi).
